

Palmerworks Design provides highly personalized service to every client

Personalized Service at an Affordable Price

The Palmerworks team specializes in personalized service at an affordable price. We'll meet with you to discuss your needs, then we'll develop a custom-made site to your specifications. We'll incorporate your pictures, use the colors that you prefer, and even write the content from information you provide.

See Kuhn Specialty Flooring and Butler Little Theatre.

We are not a do-it-yourself company with a few templates for you to fill in. We're a full-service team that will take care of all the details, while you run your business.

Small business owners love us, because, besides creating a site, we go the extra mile to help them develop a corporate identity, including new logo design, domain name, business cards, brochures, monthly newsletters, door signs, and more.

Don't understand a lot of technical details? Need to get a handle on social networking? Palmerworks will explain and help you set up Google resources, like Google Voice, Gmail, and Doc sharing. We'll set up your Facebook and LinkedIn pages, and your Twitter account. Want to sell a few items from your website? We'll explain how to set up a Paypal account, then we'll link it to your product sales page.

See Caprara Bakery.

Palmerworks will be there every step of the way. More importantly, we'll also be available for updates or advice after the project is complete. We also offer blogging, photography, and site update services. We'll take pictures of your events, keep up your blog, and update church bulletins or events schedules.

Take a look at the Garden City DDA and Michigan From the Heart websites.

Our websites are professional but very affordable. They are SEO-friendly and include domain name, hosting, and – most importantly – our latest websites can be viewed on a tablet or phone. We provide web content, tailor-made to your company's goals...and even offer an economy package for less than \$800. Larger packages and a one-page site "business card" site are also available.

See an example of a business card site: JFL Diversified.

Call us today at 734-252-WEB1 to set up a free consultation or fill out our contact form.

The Palmerworks Design Philosophy

"Good writing is at the heart of a professional website. Many graphic and web designers can produce a stylish site, but have no aptitude for the written word. Without succinctly written text, websites lose their ability to sell your products or services."

Katherine Palmer, Co-President of Palmerworks

"When I design a website or a print project, I listen to the client's ideas, likes, and dislikes. I use classic design that doesn't distract from the message or product, and I strive to make it as visually appealing and down to earth as possible. I

like to use white space and graphics generously." Rick Palmer,

Co-President of Palmerworks

Katherine is a wonderful person to work with. She is dedicated and honest in her approach and just a delight to know. I would highly recommend her and endorse her work. She is a blessing to work with.

Dr. Charles Cappichioni

Palmerworks is responsible for creating three of my websites. The team is extremely accommodating and personable. They meet deadlines and always go above and beyond to make sure that we are happy with our product.
